Ruth is a seasoned Full-Stack Developer with a proven track record of delivering impactful technology solutions and leading hands-on projects. Her skills were honed through Andela's Technical Leadership Program, showcasing a dedication to technical excellence and leadership. During her time at SevenX, Toast and Aosis Infobytes, she played a pivotal role in enhancing software and web-development solutions, which culminated in a successful product launch. At H. Gavin Company, Ruth's adept problem-solving abilities and leadership significantly optimized IT support processes, underscoring her capability to drive results and foster collaborative teamwork.

Experience

Mentor | DevX Program
Kigali-Rwanda

3 Aug 2025- 17 Aug
2025

- Designed and delivered a two-week coding curriculum for advanced high school students, focusing on software development and teamwork.
- Provided technical mentorship in programming concepts and project development, helping students gain confidence in applying their coding skills.
- Inspired and encouraged young women in technology, promoting inclusion and reducing gender-related barriers in IT education.

Full-stack developer as apprentices | SevenX
Kigali-Rwanda

July 2024-Oct 2024

- Developed a People and Group Management System at SevenX: Collaborated with a cross-functional team to design and implement a comprehensive management system, enhancing organizational efficiency.
- Contributed to Health Connect's Platform Development: Utilized Next.js, Drizzle, Shadcn, and TypeScript to develop and maintain key features of the Health Connect platform, improving user engagement and functionality.
- Full-Stack Development Experience: Gained proficiency in both frontend and backend development through active participation in diverse projects, demonstrating adaptability and a broad skill set.

Internship-Full-stack Developer | Toast Group
Kigali-Rwanda

Jan 2024 - April 2024

- Backend Development for Toast Company: Focused on building and optimizing server-side logic using Node.js and Express.js to deliver scalable and high-performing web applications.
- API Design and Integration: Developed and integrated RESTful APIs, ensuring seamless communication between the frontend and backend while improving overall system efficiency.
- JavaScript Proficiency: Leveraged advanced JavaScript skills to enhance backend functionality, implement security measures, and optimize database interactions for faster response times.

Junior Software developer-Andela Technical
Leadership Program(ATLP)

Jan 2024-Sept 2024

- Backend Development: Engineered and maintained RESTful APIs using Node.js, Express, and MongoDB, ensuring efficient and scalable server-side applications.
- API Documentation: Utilized Swagger to create clear and comprehensive API documentation, enhancing the developer experience and facilitating seamless integration.
- Project Management: Leveraged Trello for project management, effectively tracking tasks, milestones, and team collaboration.

- Project Management: Leveraged Trello for project management, effectively tracking tasks, milestones, and team collaboration.
- Agile Practices: Actively participated in daily standups and demo sessions, providing progress updates and addressing blockers to ensure project continuity.
- Scrum Master Role: Acted as Scrum Master, organizing and leading Agile ceremonies such as sprint planning, retrospectives, and reviews to drive team productivity.
- Frontend Development: Developed dynamic and responsive front-end applications using Next.js, React, and JavaScript, focusing on user experience and performance.
- State Management and UI: Employed TypeScript, Redux Toolkit, and Storybook to manage application state and develop reusable UI components, ensuring consistency and maintainability across the project.

Junior Software Developer Internship | Aosis Infobytes
Remote-india

June 2023-July 2023

- Contributed to the successful launch of a new software product by assisting with the design, development, and implementation phases.
- Participated in code reviews, ensuring adherence to established guidelines and promoting knowledge sharing among team members.
- Developed custom features for existing applications, tailoring solutions to meet specific client needs.

IT Support|H.Gavin Company
Kigali-Rwanda

June 2020-April 2021

- Coordinated with I.T. support teams to resolve systems-related issues, minimising downtime and disruptions for end users.
- Streamlined IT support processes by establishing a centralised helpdesk system to handle user requests and concerns.
